Soluciones del 73 al 80 (solutions from 73 to 80).....	30
Piezas del juego (pieces of the game).....	31

# Introducción

Tomé las piezas de este Tangram de unas viejas copias que tenía sueltas, con seguridad pertenecen a un viejo libro que desconozco. Hice todas las piezas en Photoshop y después las figuras, después de esto las organicé en este libro para el jugador; me tomó mucho tiempo pero disfruté el hacerlo.

Las figuras desde el No 1 al No 40 pertenecen al libro. La mayoría llevan el nombre original otras las renombré. Las figuras desde el No 41 al No 80 son de mi creación.

En la última página del libro encontrarás las piezas de este juego. Puedes imprimirla en un papel (mientras más grueso mejor) y laminarla. Así pues podrás hacer tu propio Tangram.

También puedes personalizar el tamaño y el color con cualquier programa para editar fotos.

Personalmente no me gustan los Tangrams con piezas de diferentes colores porque el resultado es un poco confuso.

Todas las respuestas a las figuras están en el libro pero obviamente tú tratarás mil veces antes de rendirte con las más difíciles, ¿verdad? ;)

Disfrútalo :)

Marcela López Olmos

# Introduction

*I took the pieces of this Tangram from some old loose copies I had that surely belong to an old book that I don't know. I did all pieces in Photoshop and then the figures, then I organized them in this book for the player; took me a lot of time, but I enjoyed it. The figures from No1 to No 40 belong to the book. Most of them have the original name others I renamed them. The figures from No 41 to No 80 are from my own creation.*

*In the last page of the book you will find the pieces of this game. You can print them in a paper (the thicker the better) and then laminate it. So you can make your own Tangram. You can also customize the size and color with any photo editing program.*

*Personally I don't like Tangrams with pieces of different colors because the result is a little confusing.*

*All the answers of the figures are in the book but obviously you will try one thousand times before giving up with the difficult ones, right? ;)*

*Enjoy :)*

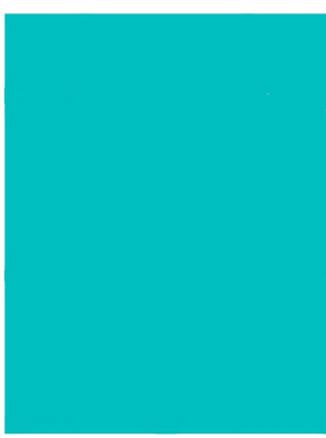

*Marcela López Olmos*
